

## AB Converter-chan (ABC) by Kinoshita laboratory

"AB Converter-chan kit" is a converter kit which can convert 3.5mm TRS MIDI signal type(from TRS MIDI A to B, and vice versa). Please use it when you want to connect devices with different signal types.

### Kit contents:

- 1x PCB
- 2x 3.5mm TRS jack

### What you will need:

- 2x 3.5mm TRS cable

### How to assemble:

Solder the included TRS jacks to the place shown below(8 points).

### Usage:

This converter has no polarity or direction. When you input MIDI signal from a side, you can get converted signal from the other side.
